

**Marek Gróbarczyk**  
Minister of Maritime Economy and Inland Navigation

Appointed as the Minister of Maritime Economy and Inland Navigation on 16 November 2015. He worked on ships as an officer, as well as in transport and construction companies. He held managerial positions in commercial law companies - he was a member of the management board of Nitrogen Plant, Moscice (Tarnow) and a member of the Supervisory Board of the Logistic Operator of Liquid Fuel. In 2007 he held the office of the Minister of Maritime Economy. He had prepared, among others two programs; Construction of the eastern breakwater in Świnoujście, being an external port for receiving liquefied gas, and construction of a shipping channel through the Vistula Spit.

He graduated from the Faculty of Mechanical Engineering at the Gdynia Maritime University. He is also a graduate of post-graduate studies at the University of Agriculture and Technology in Bydgoszcz in the field of digital telecommunications. He completed many courses in management and finance.

In 2008-2009 he was an expert at the Chancellery of the President of the Republic of Poland for maritime economy. He was a Member of the European Parliament. He worked, among others in the Committee on Industry, Research and Energy and the Delegation for relations with the People's Republic of China. He was also a deputy member of the Committee on Fisheries and two delegations - for relations with the countries of Central America and the Euro-Latin American Parliamentary Assembly.
