

Sim Turf

Policy Advisor Inland Navigation (Flemish Ministry of Mobility and Public Works)

Sim Turf (°03/08/1981) studied Political and Social Science at the University of Ghent (Belgium), during which he specialized in the environmental policy of the European Union. He worked for over more than three years as an advisor Foreign Trade at the cabinet of the Flemish Minister of Foreign Trade, Economy and Innovation. In 2011 he obtained an additional degree in the field of Environmental Science at the University of Antwerp (Belgium). Since the beginning of 2012, Sim Turf has been working as a policy advisor Inland Navigation at the Flemish Ministry of Mobility and Public Works (Belgium). Sim Turf is responsible for a wide range of inland navigation issues, such as infrastructure of inland waterways, the recreational component of inland navigation, etc.. Sim Turf represents Belgium in various international fora such as the UNECE Working Party on Inland Navigation Transport, the pan-European study consortium of the Good Navigation Status Study, the PIANC working group “A Guide for Applying Working with Nature to Navigation Infrastructure Projects” or the NAIADES II Implementation Group .
